

I listen to K-LOVE radio station 106.7FM every morning on my way to work and every afternoon as I return home. The programs and music offered on this station lift my spirits helping me to deal with the public on a more possitive level at my place of work. When I go home in the afternoon it helps me to wind down so that the time I spend with my family reminds me how blessed I truly am. I get local information of upcoming religious events in my area that I would not know about if this station was no longer available to me. If this station was not available to our area because it by LPFM broadcasting other programs my area would greatly miss the uplifting informative hosts and programs offered by K-LOVE. I choose to listen to this station and financially support this station so that I do not have to listen to the secular stations, please do not take this away from my area.
